

TUNAP Fuel & Engine Treatment Package (Diagnostic facts)

- Tool: Injector cleaning adapter + chemical
- Time: Preparation = 5 min, Cleaning = 45 mins
- Effects: Excellent Cleaning Results
Improved Response
Better Fuel Economy

Injector cleaning

Before

Function and status display	
- High-pressure fuel system	
Function: Fuel injection timing, cylinder 1	Status: 1.15 ms
Function: Fuel injection timing, cylinder 2	Status: 1.14 ms
Function: Fuel injection timing, cylinder 3	Status: 1.15 ms
Function: Fuel injection timing, cylinder 4	Status: 1.15 ms

Function and status display	
- Operational smoothness values	
Function: Operational smoothness value, cylinder 1	Status: -2.07 1/s
Function: Operational smoothness value, cylinder 2	Status: 0.80 1/s
Function: Operational smoothness value, cylinder 3	Status: -1.78 1/s
Function: Operational smoothness value, cylinder 4	Status: -3.21 1/s

After

Function and status display	
- High-pressure fuel system	
Function: Fuel injection timing, cylinder 1	Status: 0.91 ms
Function: Fuel injection timing, cylinder 2	Status: 0.93 ms
Function: Fuel injection timing, cylinder 3	Status: 0.91 ms
Function: Fuel injection timing, cylinder 4	Status: 0.92 ms

Function and status display	
- Operational smoothness values	
Function: Operational smoothness value, cylinder 1	Status: 0.53 1/s
Function: Operational smoothness value, cylinder 2	Status: 0.09 1/s
Function: Operational smoothness value, cylinder 3	Status: -0.10 1/s
Function: Operational smoothness value, cylinder 4	Status: 0.08 1/s
