Universal cleaner

Cleaner for maintenance, repair and assembly work
For workshop use

Features

- Removes oil, grease, resin and silicone
- Binds and flushes out brake dust
- Quickly evaporates
- High spray pressure for optimised cleansing effect even in places difficult to get at

Use

- For brake maintenance and repair or clutch repairs
- For maintenance, repair and assembly work involving extreme grease and resin deposits

Application

Remove the worst of the dirt from the places to be cleaned and then spray them thoroughly until they are bare and clean. Let the solvent drain off or evaporate. Repeat if necessary.

Notes

Do not spray on paint. Check first on concealed areas if using on sensitive components such as plastic parts.
