

## Brake service with MP 113

1. Disconnect the brake pads.

2. Clean the slide face and the back side of the brake pads.

3. Clean the whole brake system. (brake calliper, calliper bracket)

4. Apply MP 113 on the whole back side and the slide face of the brake pads.

5. If the brake pad has a sticker on the back side, so you haven't to apply on the back, just on the slide face of the brake pad.

6. Then you can connect the brake system again.
