

TUNAP 321

Engine System

Recommended for all petrol and diesel engines with or without turbocharger, with or without catalytic converter or particle filter. Fully effective with all mineral or synthetic oils in all viscosity classes including all international specifications.

Properties:

- Reduces frictional resistance by OMC₂
- Cleans entire oil circulation system including the critical piston ring zone
- Frees stuck piston rings
- Protects against corrosion
- Neutralises aggressive combustion acids
- Extreme wear reduction
- Ensures induction improvement
- Protects from black sludge and its consequences
- Optimum running reliability

Use:

- With every oil change
- With any engine repair
- On oil sludge diagnosis
- After mechanical internal engine cleaning
- After engine cleaning with 327

Application:

Sufficient for 4-5 litres of engine oil. Ideal added quantity 10%. Reduce fresh oil level accordingly.
